

# Built by auditors, for auditors

**Transform your cybersecurity audits from weeks to hours with Audora**

**Crafted by seasoned auditors and cybersecurity pioneers, Audora is your intuitive, collaborative platform for seamless and automated compliance processes.**

## Why Audora?

**We bridge the gap between auditor and auditee.**

Audora empowers audit firms and their clients by turning disjointed silos and inefficient workflows into a unified, transparent process in four steps: **Readiness, Plan, Assess, Report.**

Enhance your competitiveness, minimize inefficiencies, and optimize team capacity with an automated SOC 2 audit process—all in one tool.

Audora is your one-stop solution for all of your audit needs, providing the efficiency, ease of use, and compliance adherence so you can bring more value to your clients. Discover the new era of accessibility and effectiveness, where audits become an **opportunity rather than an obstacle.**

## Key Metrics

**+30%**  
time-saving per audit

**+300%**  
concurrent audits per person

**-80%**  
reduction in lost opportunities

**~\$10K**  
cost reduction per audit average (~33%)

## How the platform works

Optimize every stage of the engagement lifecycle with Audora

### READINESS Phase

Kickstart your audit process seamlessly

- Easily invite your team members and clients, and track the status of your invitations.
- Clear visibility of progress and tasks across all audit engagements and clients.
- Create new audit engagements with ease by simply selecting the audit type and allowing Audora to guide you through the next steps.

### PLAN Phase

Achieve precision and increase automation in your assessments

- Define controls and exceptions throughout your audit process.
- Create evidence requests and assign tasks.
- Get a status overview of all active tasks and evidence requests.
- Easily search and organize controls, requests, and tasks with unique IDs.

### ASSESS Phase

Streamline your reporting

- Approve or reject submissions and upload documents in one place.
- Review and compensate exceptions to easily determine impact on criteria.
- Add comments for clarity and transparency among your team members and clients.

### REPORT Phase

Finish your engagement with ease

- Easily collaborate for quality review.
- Generate and deliver comprehensive reports with a click of a button.

## Features to simplify your auditing journey

### Automated momentum

- Automated task management
- Seamlessly digest materials from multiple sources
- Focuses teams on high value interactions vs. manual tasks

### Clear & repeatable

- Centralized, organized hub
- Guided workflow enables asynchronous activity
- Status transparency for all
- Access historical audits to increase efficiency each year

### Flexible & scalable

- Customizable SOC 2 controls
- Flexible to scale into other partners in your ecosystem
- Flexible pricing in sync with your efficiency savings
